STAT

SUBJECT: Contract FL-3011 Ground Support Equipment

Dear George:

Appendix B of the subject contract lists maintenance tools and test equipment originally intended to be supplied under Item 5. In the course of this program a few changes have been made in this list. Attached are one reproducible and two copies of Appendix B (Revised), dated June 11, 1956, which incorporate these changes.

STAT

Shipment of test equipment on this contract is being made per the Revised Appendix B.

Since the estimated cost for the revised list is only about 1% higher than the cost for the original Appendix B, no change in estimated cost is being requested at this time since this work is subject to redetermination later.

It is requested that the subject contract be amended by incorporating the attached Appendix B, Revised, dated June 11, 1956 in lieu of the original Appendix B.

Sincerely,

STAT
